

Natural Resources Conservation Academy 2018-2019 CTP participants Allie Gennings, Matthew Franks, Howard Li and Oliver Zhao created a onehour Trails Experience Activity Plan at the South Kent School in Kent, CT.

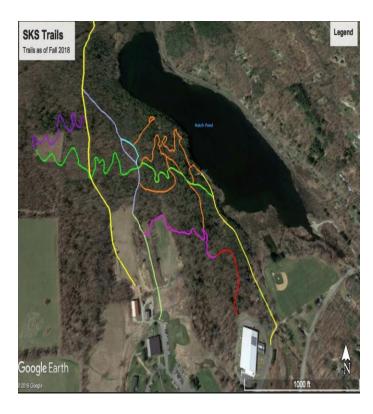

An overview of their project is below.

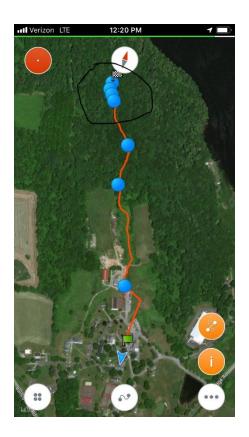

Trails Experience Activity Plan

Start Point: School courtyard; walk to gym trail entrance

<u>Route</u>: Start on light green trail behind shed to light purple trail. Continue to Forest Health and Invasive Species site with presentation. Then take pink trail for presentations/activities on Environmental Need of Forest, Climate Change and Forest Bathing. End on red trail behind arena.

End Point: Arena; take bus back to Courtyard

Four Points of Education and Experience Along the Trail:

- 1. Overall Trail Project History and Importance (Allie)
- 2. Environmental Need of Forest and Climate Change presentation and activity (Oliver)
- 3. Forest Bathing presentation and activity (Howard)
- 4. Forest Health and Invasive Species presentation and hands-on removal activity (Matt)
